

LIFE IS COLOURFUL

**By Anita Mohanty
Student- IECTEC Tollygunge, Kolkata**

As the saying goes –“Life is what happens to you, while you are busy making other plans”. So, here I am to-day penning a few lines of my experience as an IECTEC trainee. All I could tell you so far that one fine morning I woke up from the bed and found myself to be seated at the front bench of IECTEC class – a beam of pleasure indeed !!! Suddenly life has taken a new turn. I have set out in the path of an unknown fairy land where things started looking more colourful than ever before.

Needless to say that I am only a few days old since I get enrolled in this course but my heart never stops singing its glory. Initially I was surrounded by myriads of doubt, question and inhibition but soon got over it when I went through its motto –Let’s PlayShh! Learn Too. It really captured my imagination. After all who does not want to learn while play and play while learn?? True to its spirit, the atmosphere in IECTEC allows one’s soul to sing, dance, praise, love, and bloom. Going through this course is an experience itself. It’s highly trained faculty have made the whole process of learning simple, interesting with their unique innovative style of teaching. The course is entirely activity based helping one’s creativity to soar high.

Personally I feel KIDZEE with its novel approach have made the entire course a pleasure trip and a joy ride to the –“Alice in the wonderland”. Hopefully, for me life has come to a full circle after joining this course. I wish, it could appeal to the sense of every teacher to be.
