

Respected Mam,

Our I.E.C.T.E.C course is in the very
of completion. Now standing in this position I have
a clear experience about this course. This course
through theoretical and practical experiences, I understand
that; this course not only make me professional
but this course also help me to relate
every subject with our practical life. Because
the subjects included in this course helps me lot
to communicate with ~~the~~ every child. Subjects
like "Integration of Children with special needs" and
"Theories and Approaches of child" helps me to tackle
and understand the special children as well as
the normal children. It helps to understand the
psychologies of the different kids at their different ag.
And ~~the~~ "Nutrition" is such a subject that relates
and always important through out the life cycle.
Even this course has the opportunity to learn
the management part, administration part and
the school curricular programmes through ~~out~~ the
subjects like "Pre-school Organization" and "Curricular
Planning Theory". So, it makes a person "good-teach
~~as~~ ^{as well} as a good-administrator also. Now, regarding
the faculties I have to ~~just~~ say "Excellent" because
they are very friendly and co-operative while take
our classes. They always treat us with special car

P.T.O

Everyone are always ready to guide us through the right path. Anytime we need any special class or any extra note, they give us. Even now they are doing lot of revisions, class-works in every subjects. Specially, the 'Field-trip' ~~organizing~~ ~~to~~ ~~the~~ ~~schools~~ to "Riddhi" (special school) and practical exposures to "Mickey Mouse", "One Step Up" and in "Grania Kidzee" branch helps ~~us~~ to gather practical experiences. Now, I feel much comfort and confidence while taking the practical classes.

So, I think this course help me lot for becoming a perfect "Teacher". I ^{am} really enjoying myself by joining this course. Hope! this course will flow in its own way and give more opportunities to the persons who are like to be a perfect "Teacher" in this world.

Thanking You,

Yours faithfully
